MORE THAN JUST ECO

ARBITON ECO STATEMENT

MOUNTAINS OF GARBAGE LITTER OUR PLANET. DISPOSABLE, LOW-QUALITY AND ARTIFICIAL AGING PRODUCTS ARE TO BLAME.

IT'S NOT PLASTIC AS A RAW MATERIAL, BUT OUR APPROACH TO THINGS WE USE.

THE SOLUTION IS NOT TO ELIMINATE PLASTICS, BUT TO CONSCIOUSLY AND RESPONSIBLY USE, RECYCLE AND REUSE.

HIGH-QUALITY, LONGLIVED PRODUCTS THAT ARE 100% RECYCLABLE GUARANTEE THE FUTURE SAFETY OF OUR CHILDREN.

REDUCE, REUSE, RECYCLE

THEREFORE, UNDER THE ARBITON BRAND YOU WILL FIND ONLY PRODUCTS THAT WILL SERVE YOU FOR MANY YEARS, SUCH AS A VINYL FLOOR WITH A MINERAL CORE, FOR WHICH WE GIVE A 20 YEAR WARRANTY.

LET'S GO BACK TO THE TIMES WHERE THINGS LASTED FOR MANY YEARS.

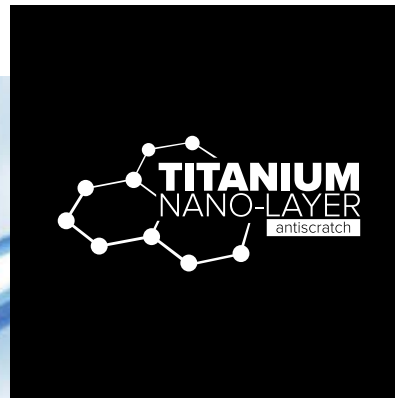

A photograph of two hikers walking away from the camera on a dirt path in a forest. The hiker on the left wears a wide-brimmed straw hat, a blue and white plaid shirt, and a large tan backpack with a rolled-up sleeping bag and a metal cup. The hiker on the right wears a tan pith helmet, a red and white plaid shirt, and a large tan backpack with a rolled-up sleeping bag, a lantern, and a small brown bag. The background is a soft-focus forest with tall trees and green foliage.

DURABILITY + STRONGER

LOCKING SYSTEM

HD Mineral Core primarily means extremely strong locking system what gives the whole flooring system a maximum durability. Despite of small thickness of the plank our locks are 2 times stronger than average LVT locks available on the market.

WATERPROOF

No need to be scared of water. Our floors are 100% waterproof. Frequent cleaning or spilled drinks are no longer dangerous to your floor. Without concerns you can connect your kitchen floor with the rest of your living space.

100% WATERPROOF

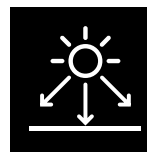

UNDERFLOOR HEATING

Very low thermal resistance of our floors means more effective use of the underfloor heating system. Thanks to HD Mineral Core less fuel is needed for floor heating and over 60% less carbon is released into the atmosphere from one household in Europe, each year.

THERMAL RESISTANCE

(EN 12664) up to 0,033 m²K/W

DIMENSIONAL STABILITY

HD Mineral Core also means high dimensional stability of the floor even in very sunny rooms. We offer at least 2 times higher dimensional stability of our floors in comparison to traditional LVT.

DIMENSIONAL STABILITY

(EN ISO 23999) up to 0,05%

ONE SPACE ONE FLOOR

Thanks to its usability our floor is dedicated to open space interiors. Open kitchen with living room is a heart of your home and with our **HD Mineral Core** solution your floor will stay strong and beautiful for years.

STRONG & SILENT

CLICK
FLOOR

5G® LOCKING SYSTEM is based on a single action installation method. The boards are locked on the long side with a traditional angling method. When a panel is folded down, a flexible plastic tongue is pushed into a tongue-groove. As the panel reaches its final position, the locking tongue snaps out into a wedge groove, emits a click sound and locks the product vertically. Floor installation has never been easier.

OPEN SPACE

Universal access to education, information and design has never been easier. Democracy is prevailing and movements for equal rights have strong voice. Cultures have merged and unified - MIX & MATCH - take elements you like, blend, experiment and find your own combination. This freedom of expression causes an unprecedented explosion of diversity. It is difficult to talk about subcultures nowadays, as each individual has developed its own subculture. We are not talking today about the cult of idols, adored and admired by millions. Now, anyone can be a star. For a short while, but still. Everyone has unlimited access to the media. You don't have to take part in a talent or reality show on TV, because you can create one for yourself using free social media tools. Paradoxically, even nationalist movements are a consequence of the growing freedom and inability of individuals to cope with it.

LESS BARRIERS, LESS WALLS

CA 151 | Baker Concrete

These changes affect architecture and design. The layout of the rooms and their purpose is changing. This is vivid when you see modern kitchen, which has become part of the living room. It is the heart of home, a place for work, social gatherings, a place to spend time. The same areas are adapted to perform several functions. Less and less walls in our homes, more and more light and openness. Just as we do many things at once, our environment must be prepared to keep up.

How are design trends being shaped in this environment? Fast! Trends lifetime has reduced. From showing up in one neighborhood to adaptation in the entire world passes weeks or days, not seasons. Everything happens in parallel. We cannot any longer talk about trends in terms of the 20th century. Today it is not about the fashionable color of the walls, but about the philosophy. Our holistic approach to life, the objects that surround us and the environment we live in - these are the places to look for the trends.

MIX & MATCH

> rounded shapes for furniture and lighting systems, but also walls

> color, but not necessarily intense
 > pastels (millennial pink, lavender, coral, marigold)
 > dark rooms with expressive floral motifs

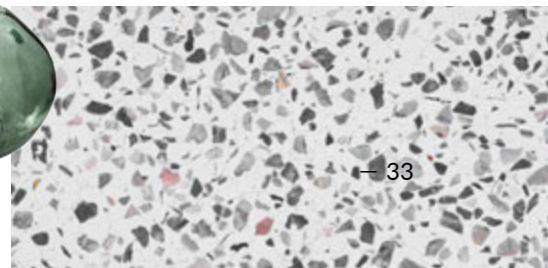

THE COMBINATION OF COLOURS, TEXTURES, MATERIALS, A FUSION OF OLD AND MODERN.

The quintessence of open space, the idea of combining, culture of mixing, and turning old styles to new life, using them in a new way. A multiplicity of which maximalism is an extreme emanation. The idea of faith in the human individuality and its uniqueness. And the similarities can be noticed in diversity.

COMING FROM THE FRENCH "BOHEMIAN", ARTISTIC, SOULFUL AND ORIGINAL. A MIX OF CULTURES, STYLES AND ERAS.

Here, the uniqueness is also sought in art, therefore graphics and sculptures play an important role, freedom of the spirit in the interior, Middle Eastern designs combined with ethnic geometric patterns. All accessories demonstrating the inhabitants' interest in culture and art are welcome, that's why musical instruments, old cameras, albums and easels appear.

NEW YORK'S ELEGANCE AND STYLE, DELIGHT IN INDUSTRIAL DESIGN, UTILITARIANISM, CLEAN LINES AND SYMMETRY OF FORM.

The triumphant return of the first style, which has become a global fashion at the beginning of the 20th century. Classic modernity, aesthetics originally combining modernism, corresponding to economic progress with classic, symmetrical forms. Today it is synonymous with timeless elegance. Elegance of furniture, high quality of natural materials - marble, granite combined with the rawness of copper. White as an addition in the form of flowers or as a universal background. Fashionable combination of black color and gold, geometric decorations. Heavy, flowing, slightly shiny fabrics in the windows. Stylized posters on Łempicka's paintings.

> solid forms
> strict rules of composition and symmetry

FOREVER YOUNG, NOT PERMANENTLY RELATED TO ANY PLACE.

Young at heart, always free, contemporary nomads. Experience beyond possessions. They live here and now, surround themselves with items they use every day. Instead of sculpture, room adorned with stylish cycling. They reject great, massive brands, appreciate handicrafts and elitism. A bit moralizing, intellectual group. The essence of style are streetwear brands from Supreme, BAPE. Above all, things and interiors are useful for them.

MY HOME
MY CASTLE

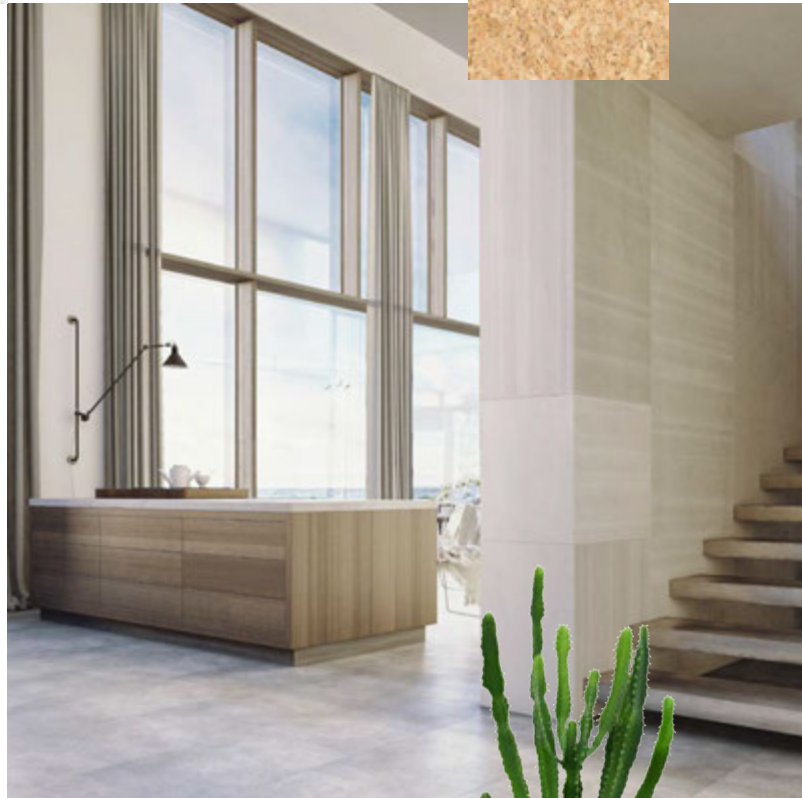

> warmth enchanted in wood
 > natural and ecological materials

WHERE IS A THESIS THERE, IS ALSO AN ANTITHESIS.

Like yin and yang. If on one hand we have mix and variety, on the other hand there will be orderly minimalism. Sometimes the amount of stimuli is so large that it triggers a defence mechanism, the need to build your own fortress and protection against the "attacking world". CASTLE, is a natural of calmness, coziness. A kind of solitude, opened to nature. Rich vegetation, natural, warm wooden colors, but above all a limited number of elements and their versatility. One place, many applications - hybrid space. Reaction to small spaces in urban apartments. In response to the flood of cheap, disposable items which lifespan is shorter with each subsequent series, CASTLE means the return to permanent, timeless things.

ZEN

> a combination of sensitivity, airiness, evanescence with durability and timelessness

PEACE OF MIND, ORDER, TIMELESS

The secret to the longevity of the people of Okinawa, taking advantage of the forces of nature, not fighting them. Appreciation of natural colors, materials and textures. There is no way to the happiness, happiness is the way. The beauty of rituals, absolute consecration to the moment without waiting for the effect. Striving for perfection, focusing on improving skills as a value, appreciating the present, being here and now. Quality over quantity, simple, harmonious and disciplined space. Usability above all. The commercial emanations of this style are MUJI or UNIQLO products.

> imperfection of nature, aesthetics of ugliness

> order, peace, satisfaction from here and now

> simplicity, balance

UNDERLAYS

FLOOR HEATING

Ideal above under-floor heating - the lowest heat resistance coefficient.

FLOOR DURABILITY

Highest compressive strength (CS) for installation in high-traffic areas.

2 in 1: substrate with integrated Aquastop vapour barrier

Material: PU/minerals + foil

Reaction to fire: Bfl - s1

Special substrate for LVT panels with click system
For high-traffic rooms (very high heavy-load resistance)
Ideal above under-floor heating (lowest level of heat resistance)

MULTIPROTEC LVT

Dedicated underlay for vinyl floors (LVT or RIGID) with click system. Is the best product for allowing the heat from your underfloor heating. Product has a very low thermal resistance. Recommended for high-traffic rooms - very high heavy-load resistance. The product meets the highest requirements of EN 16354 and the recommendations of MMFA (Multilayer Modular Floor Association).

MULTIPROTEC HARDLAY

Dedicated underlay for vinyl floors (LVT or RIGID) with click system. It has an increased compressive strength. It is possibility installed directly over existing ceramic tiles with no prep. Excellent product for floors with underfloor heating. The product meets the highest requirements of EN 16354 and the recommendations of MMFA (Multilayer Modular Floor Association).

SECURA LVT CLICK SMART N

Dedicated underlay for vinyl floors (LVT or RIGID) with click system. It has an increased compressive strength. It is possibility installed directly over existing ceramic tiles with no prep. Excellent product for floors with underfloor heating. The product meets the highest requirements of EN 16354 and the recommendations of MMFA (Multilayer Modular Floor Association).

UNDERLAYS

Install your LVT Dryback floor as a floating floor with the revolutionary Multiprotec LVT Fastlay assembly mat. You don't have to be an experienced glued-floor fitter (even laminate-floor fitters will manage Dryback installation with ease).

Minimum subsoil preparation (eliminates minor unevenness) and much quicker glue assembly. Innovative self-adhesive layer allows corrections up to 30 minutes after floor installation.

UNDERLAY IDEAL FOR DRYBACK FLOORS. IT CAN BE USED FOR QUICK RENOVATION WITHOUT INTERFERENCE IN SUBSOIL.

The surface of the mat is covered with an acrylic emulsion adhesive.

Such adhesives have HIGH INITIAL ADHESION properties, which means that powerful bonds are

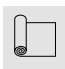

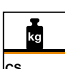

created within just 30 minutes, after which the floor can be used safely.

If any mistakes are made, it is recommended that the placement of the panel be changed within 10 minutes from the moment of first contact with the mat. Levels out minor unevenness of the substrate.

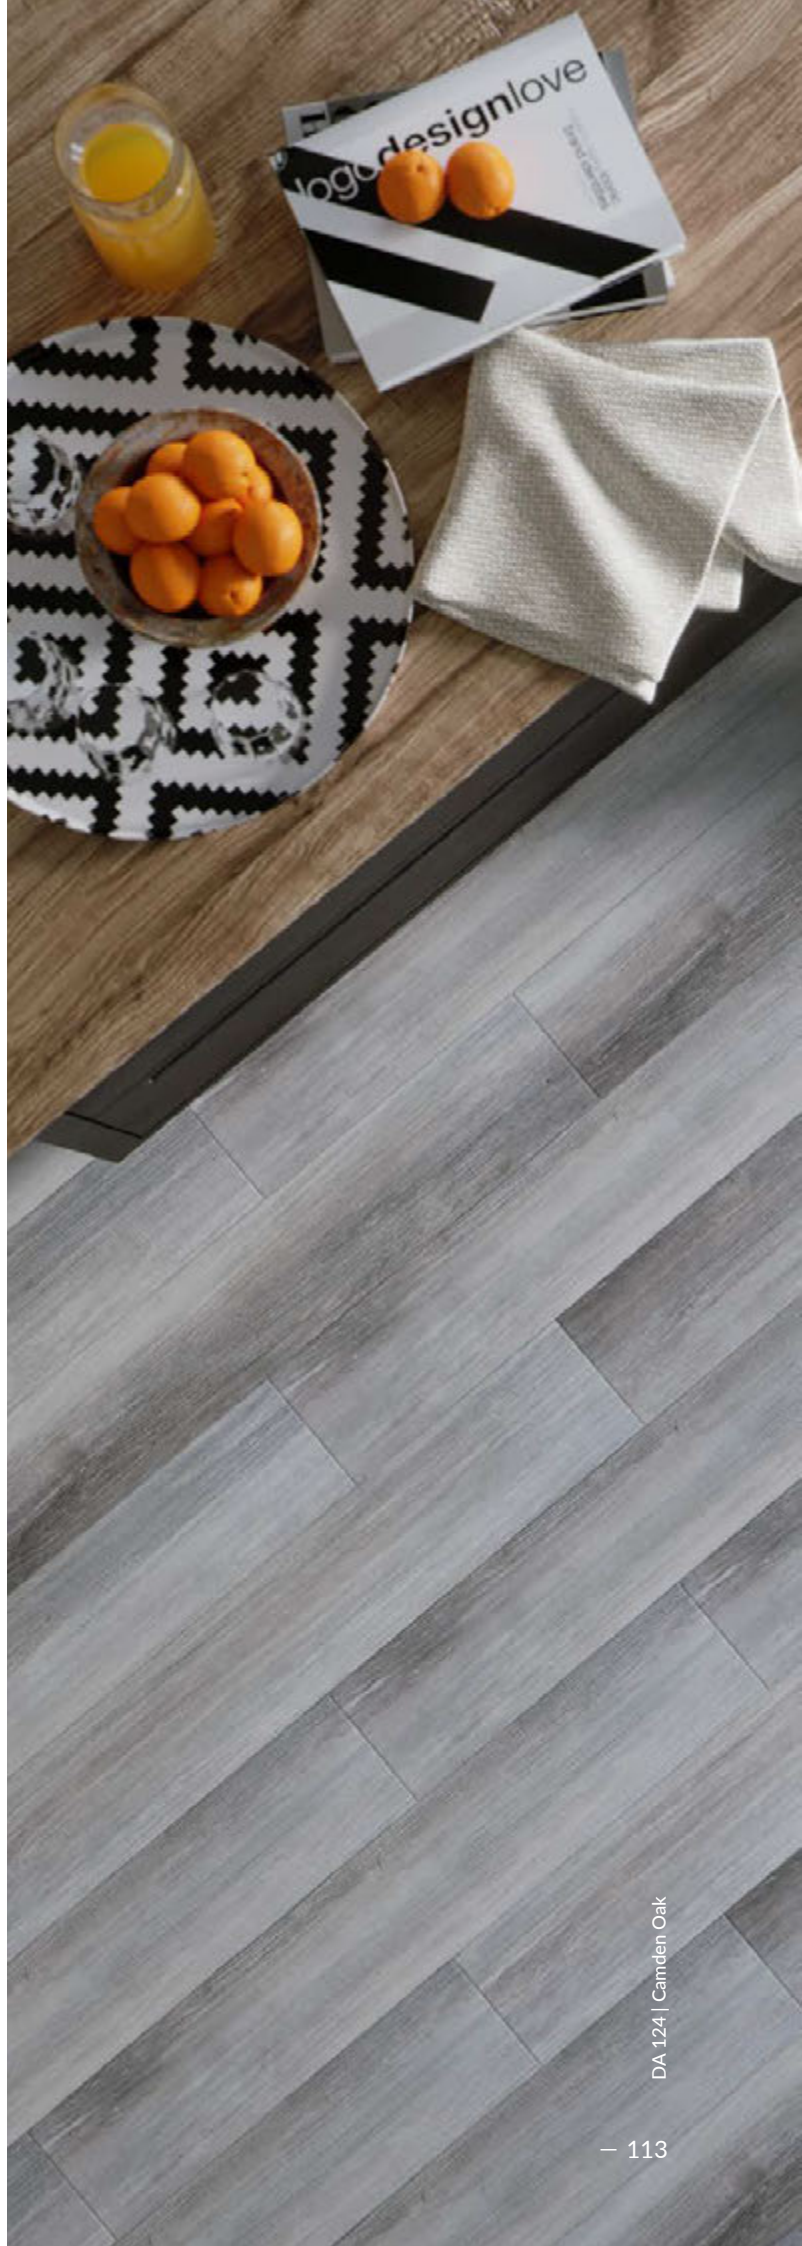

MULTIPROTEC LVT FASTLAY HD

MULTIPROTEC LVT FASTLAY HD underlay is a revolutionary solution for installing a glued vinyl floor (DryBack) as a floating floor. The ideal solution for quick renovation - the possibility of laying directly on ceramic tiles. The self-adhesive layer allows for self-assembly and correction in case of badly bonded elements. You can walk on the floor directly after assembly and after 30 minutes you can use it without any worries. Minimum preparations - underlay levels out minor unevenness of the substrate.

SKIRTING BOARDS

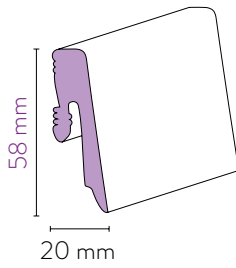

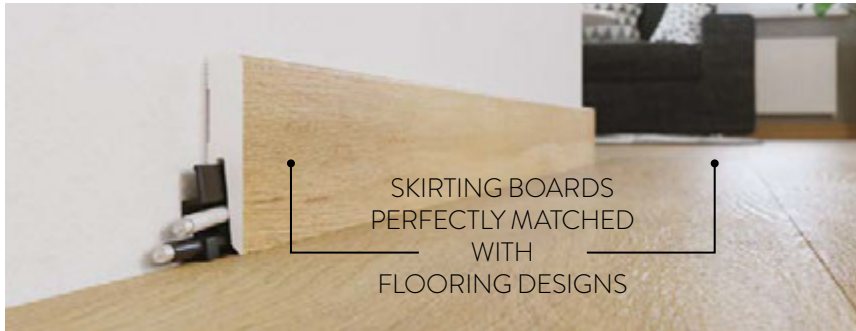

RICH COLOUR PALETTE

Designs of Arbiton skirting boards are adjusted to the current market trends on regular basis. Use of the innovative Printing technology, distinguished by high resolution printing is the guarantee of the highest quality of an image and enables ideal matching of the board and the floor. Decora's technologists have also developed original printing technology - Wood Effect in HD quality - which thanks to the high level of image details allows reproduction of natural wood.
